Hello All,

In preparation for another exciting year for the Northeast Wisconsin ASHRAE chapter, I wanted to take a moment to introduce myself. My name is Tim Mulroy, I am a sales engineer for Johnson Controls. I have been with our company for 16 wonderful years. I primarily work with mechanical contractors along with mechanical engineers. Outside of work I am happily married with 2 amazing sons. My hobbies include golfing and fishing. I also just took over as president of our youth football organization here in Kimberly, WI.

I look forward to working with all of you this year and serving as the Northeast Wisconsin ASHRAE Chapter President. We are still working on finalizing topics and dates but please see our current schedule and watch for more detailed information to come.

We will kick this year off with an afternoon meeting with a Distinguished Lecturer presentation by Mick Schwedler on his topic "Building Operational Decarbonization" We will be hosting this at Anduzzi's in Kimberly, followed by dinner and closing with a social hour just down the road at X Golf.

### Schedule:

5:00 – DL Presentation

6:00 – Dinner

7:00 – Social Hour / Golf Simulator

Anduzzis – 800 S Washington St, Kimberly, WI 54316

X Golf – W3208 Van Roy Rd, Appleton, WI 54915

### 2024-25 SCHEDULE

September 12th - Building Operational Decarbonization - Mick Schwedler DL Presentation

October - Tour of Menasha School District Maplewood School - Date and Time TBD

November - TBD More to come soon!

December - President's Dinner

January - TBD More to come soon!

February - TBD More to come soon!

March - TBD More to come soon!

April - TBD More to come soon

May - 2025 Region VI CRC

(Davenport, IA)

June 2025 - Golf Outing

**Presentation Overview:** Building Operational Decarbonization

“Decarbonization” has become a hot topic. But what is it, how do we estimate emissions reduction and how can HVAC systems be designed to reduce emissions? This presentation focuses on reducing emissions due to design choices, building operation and from the electric grid providing building power. Subjects include decarbonization definition, goals, example calculations of emissions, key HVAC components and effects, and a few system solutions. The presentation does not cover subjects such as embodied carbon or carbon emitted during construction. Consult materials available from the ASHRAE Task Force for Building Decarbonization for much more information.

Please join us! Register at [newiashrae.org](http://newiashrae.org) if you would like to take part. The virtual invite will only be sent to those that register. Please register online. Any issues, please feel free to reach out to me, [timothy.m.mulroy@jci.com](mailto:timothy.m.mulroy@jci.com), 920-284-9162

I look forward to seeing everyone!

Sincerely,

Tim Mulroy
