What: Increasing Design Efficiency Using Software

Where: *Virtual Meeting (Future email with virtual invite pending)*

When: *November 10th, from 11:30am to 12:30pm*

Details:

This course discusses how to be more efficient in the design process using software. It covers three product selection software (note, this is specific to Greenheck, but applies to all product selection software) and Revit integration. Included is a demonstration on how to size, apply, specify, schedule and generate AutoCAD® or Revit® drawings for fans, energy recovery, packaged rooftop units, louvers, and dampers. The course also demonstrates how to transfer product data to Revit tools that utilize the performance based selection capabilities of selection software, allowing users to seamlessly access Revit models without leaving Revit.

Speaker will be Jay Haferbecker from Greenheck

Please join us for this virtual meeting! Register at newiashrae.org if you would like to take part. Virtual invite will only be sent to those that register. We are trying to utilize the website for invites to remove confusion with the Zoom invite. Please register online. Any issues, please feel free to reach out to Jake Warden (jakewarden@hurckman.com)

2020-21 SCHEDULE

November - Software/Technology advancement in HVAC

December - President Dinner (TBD)

January - IECC 2015 changes

February - Fundamentals of Testing and Balancing and its role in the commissioning process

March - Day Long Technical Seminar

April - CRC

May - Golf Outing

50TH ANNIVERSARY

The Northeast Wisconsin ASHRAE Chapter was chartered on November 11th, 1969! Thanks again to Greenheck, Chuck Gulledge, and Rick Herman for making the celebration a success.
