Hello All,

To begin with, I apologize for the delay regarding the newsletter for this month. We unfortunately had a cancellation for our presentation regarding the new Darcy Geothermal system. Our group elected to try to organize a tour given the short notice but that did not work out as well. We are continuing to work locally as well as with support from the Region regarding an alternate event. At this time we are prepared to fit this into our schedule at a later date to keep a full slate for the year.

For now, we are looking ahead to our presentation by Johns Manville regarding Insulation, Types and Applications at the beginning of November. Please watch for another newsletter to follow with a detailed description for this event.

Please feel free to reach out to me if you have any questions!
