Hello All,

Thank you to all who attended last month's call on short notice. I recorded the call so this will be made available for those interested in learning about some current Government Affairs and Refrigeration Legislation updates. One chapter specific update is the transition of the Govt Affairs chair from Mike Wolf to Eric Erdman. Thank you for your service Mike!

This month we are back in person for a presentation by Lance Bonin from Johns Manville. This will also have the hybrid option as well so please feel free to call in if you can't make it in person! We will be discussing various insulation types, their applications and installation methods. This should be a great topic for our younger members and a good refresher for everyone else who is interested.

We pushed this back to the 14th to assist with travel and we will again be hosting this in the afternoon at Anduzzis in Kimberly as we had a good turnout closing out the work day.

Schedule:

4:00 - Presentation Start
Anduzzis - 800 S Washington St, Kimberly, WI 54316

I look forward to seeing you all there. Please feel free to reach out to me if you have any questions!
